Safety Information

NOTICE!!!

Unauthorized modifications may present extreme safety hazards to operators and bystanders and could also result in product damage.

The manufacturer strongly warns against, rejects, and disclaims any modifications, add-on accessories or product alterations that a re not de signed, developed, tested, and approved by the origin all equipment manufacturer. Any product that is altered, modified, or changed in any manner not specifically authorized after original manufacture including the addition of "after-market" accessories or component parts not specifically approved for use by the original equipment manufacturer will result in the product warranty being voided.

Any and all liability for personal injury and/or property damage caused by any unauthorized modifications, add-on accessories, or products not approved by the original equipment manufacturer will be considered the respon sibility or the individual(s) or com pany designin g and/or ma king such chang es. Thi s manufacturer will vigoro usly pursue full indemnification and costs from any party responsible for such unauthorized post-manufacture modifications and/or accessories should personal injury and-or property damage result.

OPERATING SAFELY

Do not operate the machine without either the discharge chute or the grass catcher fully installed.

Stop the eng ine, disengage the PTO and wait until the blades quit rotating biefore removing the grass catcher.

Stop the en gine, disengage the PT O, and disconnect the spark plug wires or remove the key when stopping operation to clear blockages, unclog, inspect the attachment, or do maintenance or repair.

If the machi ne begins to vibrate during operation. Read and understand all operation nand safety precautions associated with operating your machine on slopes and in other hazardous conditions. Do not attempt to exceed abnormally or make a bnormal sounds stop the engine, disengage the PTO, and disconnect the spark plug wires. Inspect the attachment and have necessary repairs preformed by a qualified technician.

Use extra care with grass catchers. These attachments can change the stability of the machine as well as dynamically altering the stability these recommendations with your grass collection system attached.

Only operate the catcher attachment with all guards and counter-balance weights fully installed.

Inspect grass catcher components regularly. If worn, damaged or deteriorated, they may expose moving parts or allow objects to be thrown.

Mow only in daylight.

Check operator presence interlock system and brake operation prior to each days use. Adjust or repair any problems before using.

Clear the area to be mowed of objects such as rocks, toys, wire, or other debris that may be picked up or thrown by the catcher.

Be sure the area is clear of pets and people, especially young children. Never assume they will remain where you last saw them. Stop the machine if any enter the area.

Evaluate the terrain to determine if the machine can safely perform the job. Remember that slopes and irregular terrain may cause tires to lose traction resulting in loss of control. Use extreme caution on wet grass, as this will increase the risk.

Note: When ordering parts, you must use the part number as shown for each part, not the index number. Always give the model number to your parts and/or service representative.

Frequently Ordered Parts

PART NUMBER DESCRIPTION

Ν

Note: When ordering parts, you must use the part number as shown for each part, not the index number. Always give the model and serial number to your parts and/or service representative.

Illustrations used were current at the time of printing, but subsequent production changes may cause your catcher to ν ary slig htly in detail. Hu mboldt Sp ecialty Manufacturing Company re serves the right to redesign and change the catcher as deemed necessary, without notification. If a change has been made to your catch er which is not reflected in this parts manual, see your dealer for current information and parts.

Torque Specifications

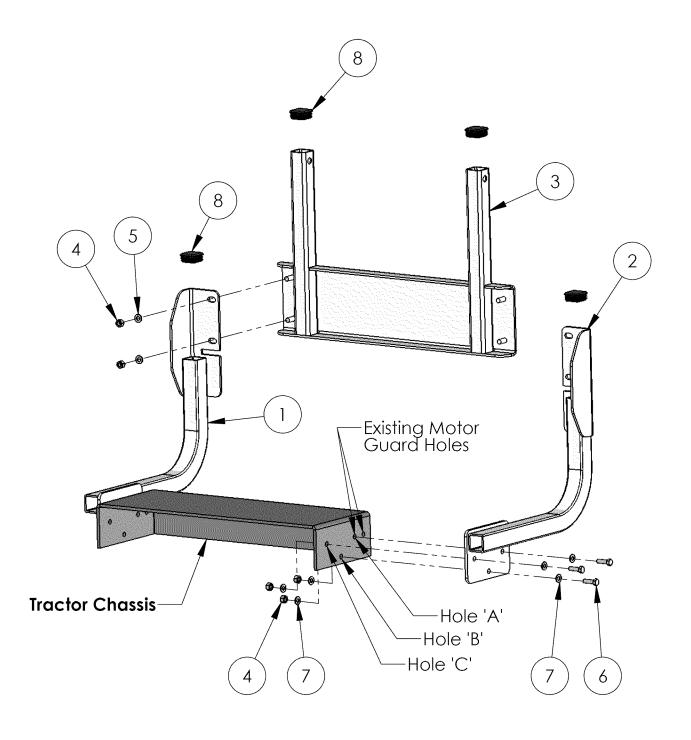

The following chart lists the standard torque values for the threade diffasteners found in this manual. Torque all cap screws, nuts and set screws to the se values unless a different torque is shown in the Notes section next to the fastener

2 Bag Catcher Mount & 2 Bag Catcher Installation Instructions

- 1. Remove front engine guard mounting bolt 'A' on the right side and install right side catcher support (1) with supplied 3/8" x 1 1/2" Cap Screw (6), Washers (7) and Nuts (4).
- 2. Position upright portion of Right Side Support (1) to a vertical position.
- 3. Clamp in place and using Right Side Support (1) as a drill guide, drill holes 'B' and 'C'.
- 4. Loosely secure Right Side Support (1) with supplied 3/8" x 1 1/2" Cap Screw (6), Washers (7) and Nuts (4).
- 5. Remove front engine guard mounting bolt 'A' on the left side and install Left Side Catcher Support (1) with supplied 3/8" x 1 1/2" Cap Screw (6), Washers (7) and Nuts (4)
- 6. Position upright portion of Left Side Support (2) to a vertical position
- 7. Clamp in place and using Left Side Support (2) as a drill guide, drill holes 'B' and 'C'.
- 8. Loosely secure Left Side Support (2) with supplied 3/8" x 1 1/2" Cap Screw (6), Washers (7) and Nuts (4).
- 9. Install catcher mount (3) with 5/16" flat washers (5) and 3/8" nuts (4) supplied.
- 10. Tighten all installed hardware at this time.
- 11. On the main catcher assembly, remove two ½" diameter detent pins in the center ribs.
- 12. Lift catcher assembly onto the catcher mount and re-install detent pins.
- 13. Remove the detent pin in the travel lock to release the catcher cover assembly.
- 14. Lift catcher cover assembly to install bags.
- 15. Install bags with the solid panel towards the mower.

Inlet Tube Installation

Initial Installation:

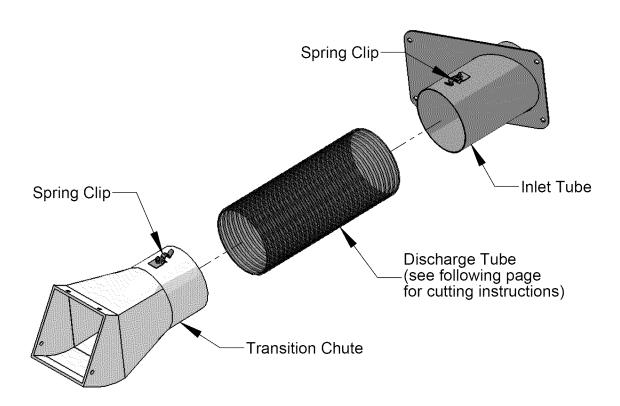

- 1. This operation to be performed only on the intitial installation.
- 2. Orient the inlet tube assembly with the spring clip on the top of the tube.
- 3. Insert the short end of the tube into the opening of the bag support.
- 4. Install 5/16" Cap Screws with Flat Washers and secure with 5/16" Nuts.

Discharge Hose Installation:

- 1. Open Spring Clip on Inlet Tube of Catcher Assembly.
- 2. Slide Discharge Tube over Inlet Tube on Catcher Assembly.
- 3. Assembly may be eased by using 'Lemon Furniture Polish' on initial installation.
- 4. Close Spring Clip over raised rib to secure Discharge Tube.
- 5. Open Spring Clip on Transition Chute of Blower Assembly.
- 6. Slide remaining end of Discharge Tube over Transition Chute.
- 7. Close Spring Clip over raised rib to secure Discharge Tube.

Discharge Hose Installation:

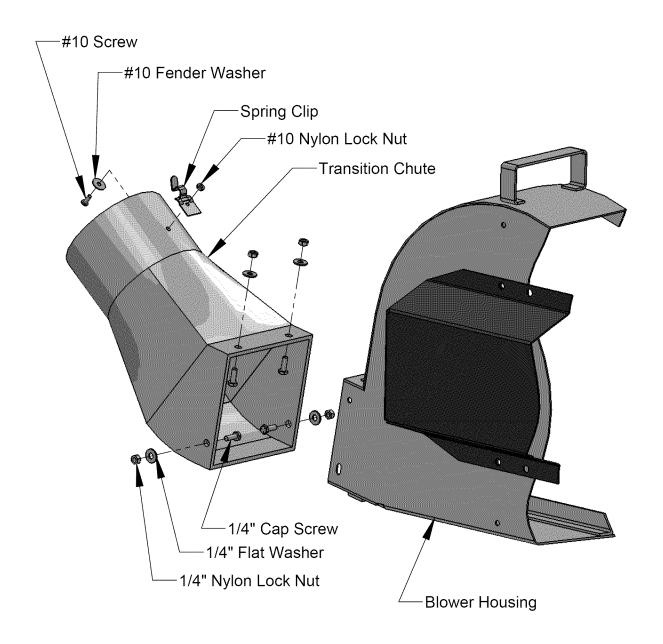

- Open Spring Clip on Inlet Tube of Catcher Assembly. 1.
- Slide Discharge Tube over Inlet Tube on Catcher Assembly. 2.
- Assembly may be eased by using 'Lemon Furniture Polish' on initial installation. Close Spring Clip over raised rib to secure Discharge Tube. 3.
- 4.
- Open Spring Clip on Transition Chute of Blower Assembly. 5.
- Slide remaining end of Discharge Tube over Transition Chute. 6.
- Close Spring Člip over raised rib to secure Discharge Tube. 7.

36" DECK-BLOWER INSTALLATION INSTRUCTIONS

- 1. Remove factory discharge chute and save hardware.
- 2. Remove factory belt guard and retain attaching hardware.
- 3. Loosen deck drive belt. Remove factory spindle pulley and retain hardware.
- 4. Install Double Pulley (2) using retained hardware.
- 5. Place rear of blower mount (1) over tube on the rear of the deck.
- 6. Insert 'L' Pin (4) into tube on blower mount and thru hole on rear side of deck.
- 7. Swing blower into place. Note: Small pin should pass thru slot on rib.
- 8. Secure blower with hairpin (7).
- 9. Install belt onto the double pulley on the deck. Note: Belt should form an 'X' pattern
- 10. Install pulley cover (3) and tighten hardware

15" Blower Belt Routing and Replacement Instructions

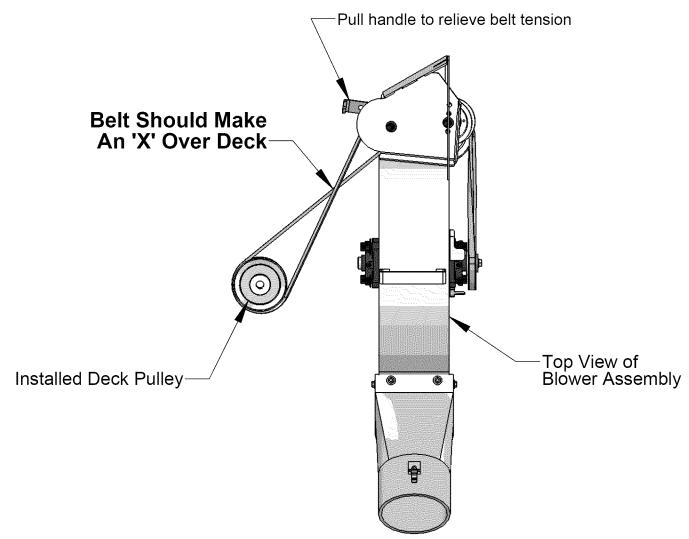

Belt Removal:

- 1. Remove four Blower Pulley Cover Screws
- 2. Remove Blower Pulley Cover.
- 3. Loosen Flatback Idler Bolts, no need to remove completely.
- 4. Loosen 'V' Groove Idler Bolt, no need to remove completely.
- 5. Remove Belt from under Belt Guide on Impeller Drive Pulley.
- Remove Belt from Flatback Idlers.
- 7. Remove Belt from the V Groove Pulley.
- 8. Pull belt from Blower Assembly.

Belt Replacement:

- 1. Install Belt under Belt Guide on the Impeller Drive Pulley.
- 2. Feed remainder of belt between Top Idlers and Bottom Idler and out of opposite side of Blower Assembly.
- 3. Install Belt into groove of 'V' Groove Idler.
- 4. Tighten 'V' Groove Idler Bolt to maintain belt position.
- 5. Twist Belt counterclockwise a quarter turn to position backside of Belt to ride on the Flatback Idlers.
- 6. Tighten Flatback Idler Bolts to maintain belt position.
- 7. Pull Belt slack to mower side of Blower and recheck belt position..
- 8. Replace Blower Pulley Cover.

Belt Routing on Mower Deck Pulley

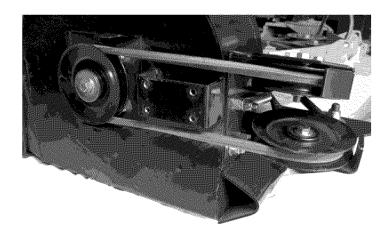

Belt Installation onto Mower Deck

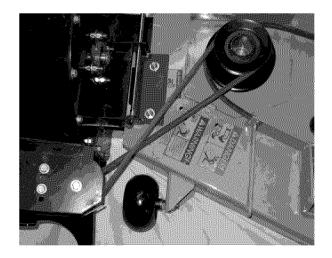

- 1. Install Blower Assembly onto Mower Deck
- 2. Pull on handle on front of Blower Assembly to extend Belt.
- 3. With handle pulled back, place belt onto Deck Pulley
- 4. Make sure Belt makes an 'X' over the Deck.
- 5. Release handle to tension the Belt.
- 6. Install Deck Pulley Cover.

Belt Fit Tips:

The system is designed to have a loose fitting belt. it is normal to have the 3-4 inches of movement in the belt with the tensioner engaged. Make sure the belt makes an "X", if it doesnt the system will not collect clippings.

BLOWER MOUNT PULLEY & PULLEY COVER INSTALLATION

INSTALLATION INSTRUCTIONS

- 1. REMOVE FACTORY DEFLECTOR
- 2. REMOVE DISCHARGE SIDE PULLEY COVER. SAVE HARDWARE.
- 3. REMOVE DISCHARGE SIDE SPINDLE PULLY AS PER FACTORY RECOMMENDATIONS.
- 4. INSTALL THE SUPPLIED DOUBLE PULLEY(7) FOR THE 42/61, (12) FOR THE 48/52 WITH HARDWARE FROM STEP(3)
- 5. FOR 61" DECKS INSTALL DECK BAFFLE. (SEE BAFFLE INSTALLATION PAGE)
- 6. INSTALL TRANSITION BOOT ONTO BLOWER. (SEE TRANSITION BOOT INSTALLATION PAGE)
- 7. INSERT LARGE 'L' PIN 2 INTO BLOWER MOUNT AND RECIEVER TO REAR OF DISCHARGE OPENING
- 8. ROTATE BLOWER TO ALLIGN MOUNT HOLES TO HOLES IN DEFLECTOR FLANGES AND SECURE WITH CLEVIS PINS AND HAIR PINS.
- 9. FOR 61" DECKS THE BELT TENSIONER POSITION WILL NEED TO BE CHANGED. (SEE BELT ADJUSTMENT PAGE)
- 10. INSTALL THE BELT ONTO TOP PULLEY OF DECK PULLEY INSTALLED IN STEP(4).
- INSTALL THE PULLEY COVER FOR YOUR SYSTEM USING THE HARDWARE SAVED IN STEP(2)

NOTE: shows blower mount for a 42" & 61" deck.
