Description Item # 07120373000P Model # 13AD78X5099

The Craftsman 17.5HP Tractor with 42 Inch Deck Delivers Power & Efficiency

Sitting at the wheel of the **Craftsman 42 inch deck riding mower** you will never again wonder if your lawn tractor has what it takes. With a 500cc, 17.5 horsepower Briggs & Stratton Gold engine, there's plenty of power to cut grass across all types of terrain along with some hauling capabilities to give you options of getting more work done around the yard like rolling or aerating. The automatic transmission is smoothly controlled through a pedal, delivering up to 5.5 mph forward speed and 2.3 mph speed in reverse. The gear selector is easily reached on the right fender.

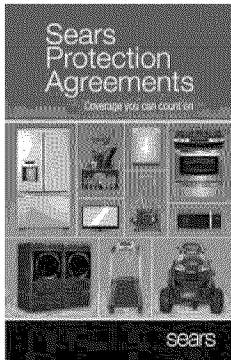

The fully welded 14 gauge steel frame and the steel front axle on the **Craftsman 17.5HP tractor with 42 inch deck** offer great stability and durability as the 11 inch mid back seat is adjustable to make your time mowing the lawn as comfortable as possible. Twin 19 inch blades in the 42 inch, 13 gauge steel cutting deck cut and are ready to mulch with the optional mulching kit (#33748). The blades engage manually as does the cutting deck through five cutting heights, from 1.5 inches to 4 inches, making it easier to manicure your lawn to

your preference. If mulching or discharging clippings isn't your thing, the deck also accepts an optional bagger. The 18 inch turn radius helps make this riding mower nimble, and the turf saver tires keep from scouring your grass off the dirt while turning to reduce unsightly bare spots at the end of your runs.

- The **Craftsman 42 inch deck riding mower** mows in forward and reverse with mulching and bagging capabilities (accessories not included)
- Automatic transmission and speed is easily controlled through a foot pedal
- The braking system operates with a pedal and lever lock for added security
- Easily mow around objects, trees, gardens and shrubs with the 18 inch turning radius
- Capable of mowing on hilly, uneven and flat terrain, perfect for just about any yard
- Integrated cup holder on the fender helps beat the summer heat
- 14 gauge steel frame is durable yet easy to step through
- Enjoy a 2 year over all warranty, along with 5 year warranty on the frame and 10 year warranty on the front axle
