### Description Item # 07120447000P Model # 20447

The **New Craftsman Pro Series 26 HP\* V-Twin Kohler 54" Garden Tractor** is built to perform and built to last with **Turn Tight® Extreme**. With the addition of electronic power steering, the rider is as easy to turn as your power steering equipped car. Turn Tight® Extreme technology provides the tightest turning radius in the industry on non-zero turn riding mowers with the ability to achieve a 5" turning radius. A powerful V-twin Kohler 7000 Elite Series engine runs smooth for a comfortable operation, while the electric power steering allows you to maneuver with ease. Kohler Consistent-Cut™ technology excels in tall grass, and hilly terrain, for the perfect cut. The Kohler Elite Series engines feature a pro-grade oil and fuel filter for longer engine life, and a platinum spark plug for more reliable starting.

The **Craftsman Pro Series 54" Garden Tractor** is equipped with a reinforced cutting system.

Featuring a deep-domed and curved design that produces optimal airflow for excellent cutting performance. The spring-loaded lift system provides low-effort height adjustments and the heavy-duty brackets add stability needed for an even cut. Engineered to prolong belt life and a simple deck removal makes maintenance quick and easy.

Electric Power Steering - 40% easier steering compared to Craftsman riding mowers without power steering\*

**Turn Tight® Extreme** - 5" turning radius is the tightest turning radius on non-zero turn riding mowers in the industry

Spring-assisted lift system provides 12 cutting positions - 1" to 4"
