Description Item # 07120381000P Model # 20381

Take Charge of Your Yard with Craftsman's Hydrostatic Turn Tight Tractor

With a solid blend of speed, power and maneuverability, the **Craftsman turn tight 42" yard tractor** takes down tall grasses in large yards while being able to mow around obstacles such as trees, planters, fences and swing sets. Craftsman's Turn Tight technology gives you the agility of a 6 inch turning radius with the normal turn of the wheel. Easily whip around gardens and other obstacles, or make the turns at the end of your runs much quicker to get the yard cut faster. A Briggs & Stratton™ Platinum engine delivers 19 horsepower* through 540cc's to give you a top mowing speed of 5.5mph, perfect for larger yards of an acre or more. Enjoy smooth operation with no shifting with the hydrostatic automatic transmission. The infinite forward gears means you're always in the power band to get up hills or effortless reach top speed.

The 42 inch cutting deck on the **Craftsman hydrostatic turn tight tractor** helps with maneuverability around obstacles and trees while being wide enough to mow down respectable swaths of grass in a single pass so you're done quicker and on with the fun stuff

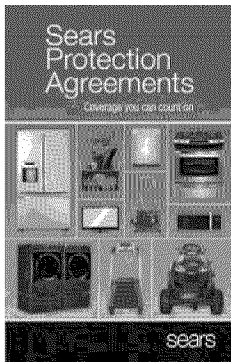

sooner. The deck adjusts to 1 inch minimum cutting height and 4 inches max and is spring assisted, making it easier to cut different parts of your yard to the specs you love. And when mowing the entire yard seems daunting, Craftsman included creature comforts on this yard tractor like cruise control, a padded adjustable seat and integrated cup holder to keep you going stronger and longer.

- The **Craftsman hydrostatic turn tight tractor** can not only cut, but mulch and bag with attachments that are sold separately
- This yard tractor is perfect for larger yards and has the power to conquer hilly, uneven terrain
- The stamped steel frame and cast iron front axle gives lasting durability and reliability
- The four cycle engine runs on regular gasoline so there's no tedious mixing in oil
- The riding mower has a 2 year overall warranty, with a five year warranty on the frame and front axle
- Not available for sale in California

*As rated by the manufacturer
