Description Item # 07120392000P

Go Ahead and Cut Corners with Craftsman's Fast Tractor

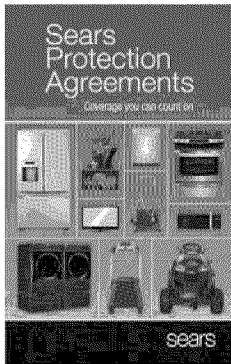

Maneuver around fences, porches, swings, trees and planters with ease and confidence with a six inch, best-in-class turning radius on the **Craftsman 48" fast V-twin tractor**. Not only can you cut corners, but you can do it faster thanks to the Briggs & Stratton® Platinum Series V-twin engine that puts out 22 horsepower* for a maximum forward speed of 7.5 miles per hour, plenty of guts to get up hills and haul accessories like an optional bagger.

An infinite speed automatic transmission on the **Craftsman fast tractor** makes operating this riding mower super simple – put it in gear – just like your car or truck. The steel cutting deck adjusts to 10 positions with spring assist and the blades engage electronically, making it simple to cut your grass down to one inch in height for a perfectly trimmed appearance or up to four inches tall for a super lush, healthy look. And when you think it's all about getting the job done with speed, mow in comfort with cruise control, a padded, sliding adjustable seat and integrated cup holder.

- Not only does the **Craftsman 48" fast V-twin tractor** mow, it also accepts snow throwing and plowing attachments
- A deck washing system lets you attach a garden hose to the deck and clean away grass clippings to keep your tractor operating and top efficiency while keeping your garage cleaner, too
- The riding mower's speed, power, transmission and comfort makes it perfect for hilly terrain along with large, flat yards
- The all-steel frame is stamped for rigidity and durability. The front axle is cast iron for superior performance and longevity
- Large front and rear tires help protect your lawn while you're working

Sears Protection Agreements [select one](#)

Join the millions of happy customers with the Best Coverage in the Industry... guaranteed. Our Blue Service Crew repair technicians have the training and knowledge to get every job done right.
