Description Item # 07120402000P

The Craftsman 48" Riding Mower Offers Lots of Power In Small Package

Tackle your large yard with confidence with the **Craftsman 48" turn tight garden tractor** that matches big power with exceptional maneuverability. With 24 horsepower coming from the 724cc four cycle Briggs & Stratton® engine, this riding mower hits speeds up to 5.5 miles per hour making your work day just a little bit shorter. The super smooth hydrostatic automatic transmission moves the tractor with the simple use of a foot pedal – there's no shifting or wondering if you're in the right gear – put it in drive and go up any hill or across uneven terrain just like in your car or truck.

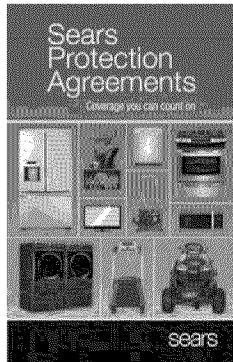

Three steel blades on the all-steel 48" mowing deck **Craftsman 48" riding mower** not only cut with precision but can mulch and bag with optional accessories. The deck easily adjusts with a fender-mounted lever to give your lawn a close shave at one inch in height to just a trim at four inches. The 48" deck width is optimal for getting the job done in a hurry but just small enough to be nimble around trees, shrubs, gardens and obstacles. With a six inch turning radius with Craftsman's Turn Tight technology, this impressive riding mower will help get the chores done faster and your weekend longer. Its Complete Start™ system means you never

have to wonder where you left your key again and makes leaving your tractor unattended much less risky. And in the winter time, tackle the snow with optional snow throwing or plowing accessories, to make this the ultimate yard utility vehicle.

- Designed for more than mowing, the **Craftsman 48" turn tight garden tractor** has heavy hauling capabilities for attachments like a tiller, bagger and aerator for complete lawn care
- A deck washing system lets you attach a garden hose to the deck and clean away grass clippings to keep your tractor operating and top efficiency while keeping your garage cleaner, too
- The riding mower's speed, power, transmission and comfort makes it perfect for hilly terrain along with mainly flat yards
- The all-steel frame is stamped for rigidity and durability. The front axle is cast iron for superior performance and longevity This garden tractor has heavy hauling capabilities with 24 horsepower and infinite gears in forward and reverse on the hydrostatic transmission
- Large front and rear tires help protect your lawn while you're working
