

Craftsman High Wheel 4-Cycle 22" Gas Trimmer

\$293.54

Description **Item # 07177674000P Model # 77674**

Cut the Tall Stuff with the Craftsman High Wheel 22" Trimmer

Small trimmers are great for most yards, but if you're dealing with tall brush and weeds, you need the **High Wheel 6.75 Torque Rating 22 in. Trimmer** to get the job done right. This is the bad boy you want to rev up when you have to tackle areas that are thick with vines and weeds or spots overgrown with tall brush that need a high-wheel trimmer in order to reach your target. Balanced 12 in. wheels make it possible to roll this trimmer over tough terrain, tree roots and twisted, woody vines, especially with the help of its 6.75 torque rated engine. A free-floating guide ball helps to protect your machine from damage no matter how challenging the job.

- Pull-Rope Start
- 12" Wheels
- Tool-Less Adjustable Cut Height
- Just Check and Add Briggs and Stratton 675EXi Engine
