## Description Item # 00937563000P

### The Right Cut With This 14-Inch Chop Saw

No matter how tough the material, this **Craftsman 14-inch chop saw** has the power to slice right through it with ease. The chop saw features the heavy-duty power of a 15.0-amp motor, so it's capable of handling tough jobs like steel drywall studs, plastic PVC pipe, and aluminum tubing. You'll cut safer with this saw, too, thanks to a large spark guard that keeps sparks away from both you and your work.

This **14-inch chop saw** features a hardened gear assembly, which delivers long term service, while supporting cutting capacities of a 5-inch diameter round and 4 1/4-inch by 6 1/8-inch rectangular material. The saw's swiveling vise holds pieces from between 90 to 45 degrees and features the convenience of a quick-release lever with snap-to-lock functionality. You'll work with stability with this saw as well, with its steel base with rubber foot pads.

- This **Craftsman 14 in. chop saw** features the power of a high-torque 15-amp motor
- A 14 in. abrasive wheel slices through a variety of tough materials like steel drywall studs, plastic PVC pipe, and aluminum tubing
- The precision hardened gear assembly gives this saw the cutting capacities of a 5 in. diameter round and 4 1/4 in. by 6 1/8 in. rectangular material
- A swiveling vise holds pieces from 90 to 45 degrees
- Quick-release lever on vise snaps into its locking position
- Work safely thanks to a large spark guard
- The saw gains stability to make your work safer and easier thanks to a steel base with

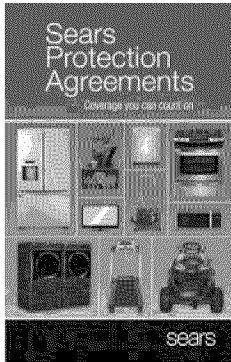

rubber ft. pads

- Move this saw from your shop to your work site with ease thanks to a built-in carry handle

**+ California Residents:** Proposition 65 Warning
