Description

Item # 00954990000P Model # 54990

The **NEW Craftsman ¾ HP Garage Door Opener** has **50% more power** and is **25% faster than ½ HP Craftsman models**. **Easy to install and maintain** with a simple user interface and quick install rail system, this model also has many **safety, security, and convenience** features built in. If you use your garage door often this powerful ¾ HP chain drive opener is ideal for frequent use.

The **Craftsman ¾ HP 54990** also features a **Motor Vibration Isolation System (MVIS®) for quiet operation** and convenient features such as a Tri-Frequency Radio System and **Anti-Burglary Coding Technology providing convenient and secure operatio**n of your garage door.

Convenience and Reliability

- **Tri-Frequency Radio System** with multiple frequency system **virtually eliminates the effects of interference** caused by products in and around the home, helping to make sure you can **access the garage every time and from the greatest distance.**

- **Wireless keyless entry pad**, allows entry into garage without a key or remote using a secure 4-digit programmable PIN.

- **Timer-to-Close** feature can automatically close the door after a set period of time.

- **Program remotes and keypads from the wall control,** no need to get on a ladder to access the "learn" button.

- **Quick Install Rail System** provides **faster and easier installation,** assembles in 60 seconds.

- Simple user interface with **Electronic Limits** and **Automatic Force Settings** that automatically monitors, sets and adjusts the force required to open and close the garage door during temperature fluctuations.

- **Energy Efficient** sleep mode uses less than one (1) watt of power.

Safety and Security

- Motion Detecting Wall Control **turns opener lights on in the garage** when motion is sensed.

- **Protector System®** safety reversing sensors with Rapid-Snap® brackets automatically reverses the door if anything interrupts the beam while the door is going down.

- Sensing technology will stop the door from closing if contact is made with a person or object.

- **PosiLock® System** theft protection securely locks door when it is down - preventing intruders from entering garage.

- **Anti-burglary Coding Technology** assures that a new code is sent every time the remote control is used.

Connectivity

- Monitor and control your garage door and home lighting from anywhere* with **Assurelink™ Connectivity.** *Assurelink connectivity hub and internet connection required for app control (#54900 sold separately).

- Compatible with **HomeLink®** in-vehicle remote control system (may require an external adapter depending on the make, model, and year of your vehicle; visit www.homelink.com for additional information).
