Harness Your Lawn On The Craftsman 46 Inch Deck Riding Mower

When your yard seems unruly and maintaining it is an ominous chore, the **Craftsman 19HP mowing tractor with 46 inch deck** is your shining light. Its 46 cutting deck, constructed of 13 gauge steel, features twin blades that cleanly slice grass blades along with mulching capabilities (with separate mulching kit). The nearly four-foot-wide cutting swath helps get the bigger yards done faster, so there's more time to do other stuff that isn't chores. The deck also adjusts to five positions with an easy-to-reach hand lever to tailor your grass from 1.5 to four inches in height. The Briggs & Stratton Gold PLUS engine helps get the job done faster, too, delivering 19 horsepower through 540cc's for a max speed of 5.5 mph, making this lawn tractor perfect for hilly, uneven terrain. There's also enough power to not only mow cleanly and efficiently, but haul a bagging cart, aeration attachment or lawn roller.

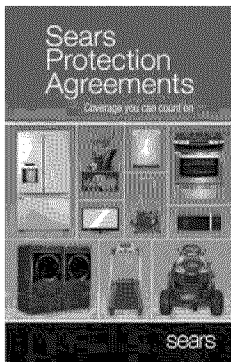

Not only is the **Craftsman 46 inch deck riding mower** powerful, but it's super easy to use, too, thanks to the automatic transmission that goes with the simple push of the foot peddle. Put it in gear and hit the gas, just like in your car - there's no worrying over being in the right gear

for hills or hauling. The gear shift is easily accessible on the right fender next to the seat for near-seamless operation. Even with all its power, this Craftsman riding mower is still agile with an 18-inch turning radius to easily mow around trees, bushes and other objects in the yard. With this agility, mowing at top speed, turning with no regards for the brakes is perfectly fine thanks to the turf saving tires that resist rubbing the grass right out of the dirt. And just when you think it couldn't get better, the steering wheel is padded, the 13 inch high back seat effortlessly slides for your personal comfort, and there's a cup holder. Yes, this is a Craftsman lawn tractor, and mowing the lawn just got a lot more awesome.

- The **Craftsman 19HP mowing tractor with 46 inch deck** is perfect for larger yards, and can cut, mulch or bag with added accessories that are sold separately
- The 14 gauge all-steel frame is not only durable, but easy to step through with non-skid pads on the foot rests
- The front axle is all steel for added durability and strength; designed to last longer
- The twin cutting blades are manually engaged and steel 46 inch cutting deck is adjustable with an easy-to-reach lever
- A simple peddle system operates the brakes with a lever lock for added safety
- The 18 inch turning radius is ideal for mowing around objects, trees and curves without tearing the grass
- The entire tractor is covered with a 2 year warranty, while the frame's warranty is 5 years and front axle warranty is 10 years
