Description Item # 07120439000P Model # 20439

The New Craftsman Pro 24 HP* V-Twin Kohler 46" Riding Mower is built to perform and built to last with Turn Tight® Extreme and Electronic Power Steering. With the addition of electronic power steering, the rider is as easy to turn as your power steering equipped car. A Craftsman Exclusive, Turn Tight® Extreme technology, provides the tightest turning radius in the industry on non-zero turn riding mowers with the ability to achieve a 5" turning radius. A powerful V-twin Kohler 7000 Elite Series engine runs smooth for a comfortable operation. Kohler Consistent-Cut™ technology excels in tall grass, and hilly terrain, for the perfect cut. The Kohler Elite Series engines feature a pro-grade oil and fuel filter for longer engine life, and a platinum spark plug for more reliable starting.

The Craftsman Pro 46" Riding Mower is equipped with a reinforced cutting system. Featuring a deep-domed and curved design that produces optimal airflow for excellent cutting performance.

The spring-loaded lift system provides low-effort height adjustments and the heavy-duty brackets add stability needed for an even cut. Engineered to prolong belt life and a simple deck removal makes maintenance quick and easy.

Electric Power Steering - 40% easier steering compared to Craftsman riding mowers without power steering*

Turn Tight® Extreme - 5" turning radius is the tightest turning radius on non-zero turn riding mowers in the industry

Spring-assisted lift system provides 12 cutting positions - 1" to 4"

24 HP* Kohler 7000 Elite Engine

46" Reinforced Cutting System

Foot Pedal Hydrostatic Transmission is optimized for smooth and quiet operation and is equipped with Cruise Control feature to reduce fatigue over long jobs

Craftsman Cast-Iron Front Axle with Lifetime Warranty
