The Craftsman Turn Tight Yard Tractor Powers Around The Yard

When your time is of the essence, the **Craftsman 42" fast yard tractor** will power through and get the job done with confidence and reliability. A two cylinder 724cc Briggs & Stratton™ Platinum engine produces 22 horsepower* that pushes this riding mower forward at a speed up to 7.5mph, perfect for a quick run through big yards or up hills. The 42" steel cutting deck mows down wide swaths with twin off-set steel blades, but is small enough to manage obstacles such as trees, fences and gardens. There are 10 positions that adjust with a spring assist to raise or lower the deck to 1 inch off the ground up to four inches. Craftsman's Turn Tight technology lets you turn your tractor in a 6 inch radius for precision cutting around corners and obstacles along with quicker mowing on larger yards by shortening your turn arounds.

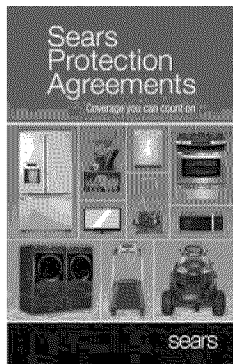

The automatic transmission on the **Craftsman Turn Tight yard tractor** eliminates having to find the perfect gear for long runs or mowing up and down hills. Just like driving your car, put this yard tractor in gear and hit the gas pedal to go, the more gas you give it, the faster you mow. The infinite speeds on the auto transmission also make for optimal hauling capabilities

so you can tow a bagger or lawn roller for your yard to look perfect. And when you're working, enjoy some comfort with a cushioned sliding seat and integrated cup holder.

- The **Craftsman 42" fast yard tractor** can cut along with cut and mulch with attachments that are sold separately
- The Briggs & Stratton Platinum engine is a four cycle so there's no mixing oil into the gasoline
- The frame is stamped steel with a cast iron front axle for long lasting durability and reliability, making this yard tractor the last one you will need for years to come
- Attach a snow thrower or snow blade to this riding mower for year-round utility
- The frame and front axle come with a 5 year warranty; there is a 2 year overall warranty on the tractor
