Craftsman Reliability & Kohler Power Come Together in this Craftsman Kohler Powered Riding Mower

Go ahead and cut corners with **Craftsman's 54" turn tight Kohler power yard tractor**. Craftsman's Turn Tight technology delivers an incredible 6 inch turning radius with a normal turn of the steering wheel, making mowing around trees, fences, swing sets and other obstacles a breeze. The 725cc Kohler Elite engine, with 22 horsepower*, moves this yard tractor at a max forward cutting speed of 7.5mph. That power and speed combined with the three-blade, 54 inch wide steel cutting deck, means the wide open acreage out back will never stand a chance. The deck has a spring assisted adjustment to cut at a maximum height of four inches and a minimum of one inch so you can tailor different parts of your yard the way you like. Anti-scalp gauge wheels on the deck ensure your lawn always looks perfect.

An automatic transmission on the **Craftsman Kohler powered riding mower** makes mowing that much easier. Just like your car or truck, just put this yard tractor in gear and step on the gas; infinite forward gears mean a super smooth ride and never having to find the perfect

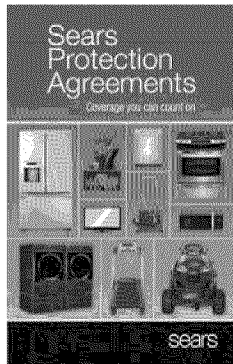

gear for hills or other challenging terrain. And since this riding mower is perfect for the real big yards, there's plenty of comfort built in, like cruise control, a cushioned, sliding adjustable seat and an integrated cup holder. Everything you need in a riding mower is here, just grab the wheel of this Craftsman yard tractor and own the yard.

- The 3-in-1 steel blades on the **Craftsman 54" turn tight Kohler powered yard tractor** not only cut but mulch and bag with optional attachments
- Hydraulic blade lift and blade engagement make mowing simple and effortless
- This yard tractor is designed for both light and heavy hauling along with snow thrower and snow blade attachment capabilities
- The stamped steel frame and cast iron front axle deliver exceptional durability and reliability, making this the last tractor you will need to buy for years
- There's an overall 2 year warranty on the tractor along with a 5 year warranty on the frame and axle
- Not for sale in California

*As rated by the manufacturer
